RED CROSS WORKERS URGED NOT TO QUIT WORK

Mrs. Leigh Bancroft, of the local Red Cross Branch, visited the Red Cross Headquarters in Los Angeles, where a meeting was held of the auxiliaries and branches of the Los Angeles Chapters. Mrs. McLeich, head of the Pacific Coast Division, who has just returned from Washington, D. C., was the speaker for the afternoon. Her talk was very interesting, and she urged the Red Cross workers to continue their work, as there was still much to be done, and that now was the time to show the spirit of the American woman in helping in the great relief work that is to be done by the Red Cross. There are thousands of children and families that must be clothed and fed as the result of the war, and the local branch wants all of its regular workers, as well as any new ones who wish to help, to take up their work again. There will be knitting and sewing to do, and meetings will be held on Wednesday afternoons. Come prepared to work next Wednesday afternoon.

On Washington's Birthday, February 22nd, a Colonial Party and Apron Sale will be given by the ladies of the Holy Family Catholic Church at the Masonic Temple. Entertainment will be provided both afternoon and evening, with no charge in the afternoon, evening 25 cents

About 325 fathers and mothers enjoyed the hospitality of the Columbus Avenue Parent-Teacher Association Monday evening in the auditorium of the Intermediate School.

DEVELOPMENT ASSOCIATION

The meeting of the Greater Glendale Development Association last Tuesday night proved to be a live one, the chief subject of discussion being the establishment of a park in our city. A plan being considered is the acquisition of the ground just west of the Glendale Sanitarium, and possibly the Sanitarium grounds, as it is the desire of those in control of the sanitarium to make a change that will give that institution greater opportunity for growth. A committee was appointed to push the matter, the plan being to have a recreation center as a memorial for the services of the Glendale boys in the war.

Plans for establishing an industrial center along the Southern Pacific tracks and bringing factories to the city were discussed also.

Another matter actively taken up was the extremely poor postal service we are receiving at present, and a committee was named to take the question up with Postmaster Harrington Brown and if possible bring about an amelioration of conditions.

NEW PREACHER FOR BAPTISTS

Officials of the First Baptist Church of Glendale have secured to act as their pastor during his sojourn here, Rev. P. L. Powell, D. D., professor of homiletics in Colgate University, New York. He occupied the pulpit last Sunday, and on Wednesday evening signified his acceptance of the call.

At one time it seemed probable that Chaplain Russell M. Brougher, son of Dr. Brougher, of Los Angeles, would accept the call, but he finally decided to go to Bakersfield instead.

Devoted to the best interests and future welfare of Tropico, Glendale, the San Fernando Valley, and Southern California

It is not so important to a man that he get justice, as it is that he himself be willing to be just to his fellow-men.

One hundred and eighty-seven years ago today, in the colony, now the state, of Virginia, a child was born, who afterwards became the "Father of his Country." As the years roll on, the fame of the lofty Washington—statesman, soldier, patriot—ever increases. He rose to the full measure of the infant republic's needs at a time when a truly great man was required.

Some of the Greater Glendale Development Association people are again trying to wish that vacant block west of the Sanitarium on Broadway on to the city as a Park or Public Center. That would be a fine thing (for those who own that ground or live near it), but if Glendale needs a park, Verdugo Park would answer the question, or if a civic center is desired, a location on Brand near the High School would be a better location. We don't believe that citizens of this section would care to be bonded to improve Broadway by spending \$50,000 for a park there.

The warmth of welcome that awaits the return of the two-cent postage stamp to general use in the United States, now expected in June, would be all the warmer if more people knew by personal experience how much cheaper postage is than it was a hundred years ago in the republic. Postage was then paid in cash, for there were no stamps at all until the faces of Franklin and Washington became familiar on the 5-cent and 10-cent stamps issued in 1847, and figured by distance. One sheet of paper was considered a letter, and it cost 6 cents to send a letter not over thirty miles; 10 cents for not over eighty

miles; 18½ cents for not over 400 miles; and 25 cents for a longer journey. No wonder the people of the time practiced a small and economical handwriting! And even so, one had to go to the post office to get the letter, for free delivery came in only in Lincoln's administration.—Christian Science Monitor.

Another largest thing of its kind in the world, the great telescope that has been twelve years in the making, has been set up at the top of Mt. Wilson, in California. Its mirror required a glass disk 100 inches in diameter, 13 inches thick, and 4½ tons in weight. The dome that protects it, and the machinery that enables it to follow the stars demanded the building of a new road and the construction of a special kind of motor truck to get them up the mountain. Altogether this latest astronomical apparatus weighs 400 tons, yet moves without vibration or sound by finger pressure on a button. But what would perhaps even more astonish,

for instance, the ancient Chaldeans is that it will do its work chiefly by taking photographs.—Christian Science Monitor.

PROCEEDINGS OF BOARD OF TRUSTEES

The Board of Trustees assembled at 8 p. m., February 20, 1919, all members present except Trustee Jackson. The minutes of the last regular meeting were read and approved.

On motion of Trustee Shaw it was ordered that the hearing in the matter of the Santa Paula Daily Express for permit to operate freight service through the City of Glendale be postponed until 8 o'clock p. m., February 27th, 1919.

Applications to operate motor cars for passenger service in the City of Glendale were received from John W. Kimball and from G. W. Warner; both approved by the City Manager, and on motion of Trustee Henry the permits were granted.

A communication was read from the City Assessor in regard to the application of Wm. R. Adams for tax exemption on the ground of service in the Spanish War. The Assessor stated that Mr. Adams did not secure possession of the property upon which he desires exemption until April 16th, 1918. The application was referred to the City Attorney, who later reported to the effect that Mr. Adams not being in possession of the property on March 1st, 1918, when the assessment was made, was not entitled to exemption, and on motion, his application was denied.

A communication was read from the City Council of the City of Los Angeles, accompanied by a copy of a proposed act to amend the vehicle act of May 10th, 1915, covering the disposition of registration and license fees, fines and forfeitures collected under the provisions of said act. The request was made in the communication that the City authorities of Glendale give their approval to the bill and exert themselves to secure its adoption by the Legislature. On motion, it was referred to the Committee of the Whole.

The report of the Tax Collector for the week ending on this date showing collections amounting to \$407.90, was received and ordered to be filed.

The City Manager reported the sale of a horse belonging to the City for the sum of \$75.00. He reported the work on the improvement of Broadway is progressing satisfactorily.

The City Manager requested that if possible a transfer of funds be made from the Sycamore Canyon Road opening fund to the General Service fund, to reimburse the City for expenditures already made. The City Attorney advised against making the transfer, and no further action was taken in reference to the matter.

The City Manager reported that he had inquiry from a prospective buyer as to the price the City would ask for a lot on East California Street which had formerly belonged to the Verdugo Pipe and Reservoir Co., and had been acquired by the City, who had purchased the property of that company. Further information being desired on the subject, no action was taken.

The City Attorney reported in regard to the application of Mr. Pelanconi for refund of taxes, and rec-

ommended that a refund be made to Mr. Pelanconi upon his filing the necessary affidavit. On motion, the recommendation of the City Attorney in this matter was concurred in, and it was ordered that a refund of taxes, paid by Mr. Pelanconi, be made to him in accordance therewith.

Concerning the claim of Mrs. Rose Haller for refund of taxes, the City Attorney also advised that a refund be made, and on motion the recommendation was adopted.

The City Attorney advised in regard to the claim of J. P. Lukens, who asked for a re-adjustment of the tax levied against a portion of his property, to the effect that as the City Assessor advised him that the property was assessed according to its value, he is of the opinion that Mr. Lukens is not entitled to a refund, merely on account of a technical error in the description of the property. On motion, this matter was continued for one week.

The Manager of the Public Service Department made a statement in regard to the use of water by the City belonging to water owners on the east side of the City. According to the statement of the Manager of the Public Service Department, that department is using 675 shares of water belonging to various owners for which no payment is made, although the said owner are paying annually on this water the rate of 20 cents a share charged them by the Verdugo Canyon Water Co. The Department also has the use of 261 shares on which it pays the 20 cent rate per share levied by the Verdugo Canyon Water Co. Altogether the Public Service Department is secured the use of 937 shares of Verdugo Canyon Water by the payment of \$52.00 per year. The Manager stated that it is

the desire of the department to deal justly with these water owners, but it has been a difficult matter to handle equitably.

A motion submitted by Trustee Muhleman was adopted as follows: That the City of Glendale rent any or all of the shares of water in the Verdugo Canyon which the owners desire to so dispose of, for the year 1919, at the rate of 50 cents per share for the year, the owners of the water to pay the Verdugo Canyon Pipe rate.

The Finance Committee by Trustee Shaw submitted the following: "The Finance Committee recommends that the sum of \$10.00 per month for the months of March, April, May and June, 1919, be appropriated for the support of the Glendale Community Sing, the same to be charged to the budget allowance for advertising and promotion; and that the matter of further contributions be deferred until the budget for the next fiscal year is taken up," which on motion of Trustee Shaw was adopted.

The Committee appointed at the last meeting consisting of Trustees Shaw and Muhleman, to prepare a memorial in recognition of service rendered to the country, by the citizens of Glendale who had responded to the call, submitted the following:

ORDERS AS TO WEARING OF UNIFORM

An order from the war department forbids the solicitation by civilian tailors of soldiers about to be discharged, for the purchase of uniforms. The men can legally wear only the uniforms issued by the government. According to this order, discharged men may only wear their uniform from the point of demobilization to their homes within three months of their discharge. Thereafter the officer may wear his uniform only on ceremonial occasions. The order reads as follows:

"Present law authorizes a discharged officer or soldier to wear his uniform from the place of discharge to his home, within three months of the date of his discharge from the service. Thereafter the officer may wear his uniform only upon occasions of ceremony.

"The enlisted man must return his uniform within four months of the date of discharge, but can wear it only as stated above.

"An act is now before congress which, if passed, will authorize enlisted men to keep the uniform which they are permitted to wear home, and to wear that particular uniform only provided some distinctive mark or insignia, to be issued by the war department, shall be worn.

"It will thus be clearly seen that neither under existing or proposed law will a discharged soldier be permitted to wear uniforms made by civilians or other tailors. They may legally wear only the particular uniform which they have been permitted to retain.

Commanding officers of camps, posts and stations will give the widest publicity to this information, both among the soldiers of their commands and in the local press. No person will be permitted to solicit orders for, or deliver uniforms to, soldiers about to be discharged. Persons or concerns persisting in selling uniforms to such soldiers, after having been warned not to do so, will not be permitted to come on or do business on the reservation.

"By order of the Secretary of War.
"PEYTON C. MARCH,
"General Chief of Staff."

BALLOON CIRCUS

Under the auspices of the Los Angeles Chamber of Commerce the first United States Government aerial exhibition will be held at Arcadia Field on Washington's Birthday, Saturday, February 22. Official sanction for the first meet was granted Saturday, and preparations are being rushed for a monster affair which is to have all the thrills that came to our boys while the Yanks were driving the Huns out of France.

The aeroplanes will cooperate with the balloon service on Saturday just as the aeroplanes co-operated with our army on the battle front. When the big bags go aloft signals will be given to the aeroplanes which will then take the air in their series of flights in which sham battles are to be fought high in the blue with all the thrills that came to our army boys as they watched our lads attacking the German Fokkers aloft over their own lines.

There are many surprises to be sprung at Arcadia Field on Washington's Birthday. The general public has little idea of what a gigantic undertaking the balloon school at Arcadia has actually become. When

the spectators see the aeroplanes dipping and gliding thousands of feet in the air, under the direction of the men in the balloons, who have sighted out and located the enemy, the thousands who are watching will have some idea of the part played in the great war by men aloft in the bags.

There will be parachute drops from the balloons. The bags, resembling elephants and other monstrosities, are to be aloft just as the army men sent them out while we were actually in the fighting. Captive balloons will be used to carry passengers, and those in charge say that the general public, at least those who so desire, will be given an opportunity to ride up into the ether with the men in the baskets.

The Arcadia field will accommodate about 30,000 people. Realizing this fact, the committee has provided for additional accommodations, as it is realized that at least twice that number of people will expect to see the show. With a population of 600,000 people or more in Los Angeles, and with many coming from the outside cities and towns, it is estimated that at least 100,000 spectators will view the aerial circus on Saturday.

W. C. T. U. NOTES

By Miss Adda Burch

Don't forget the great prohibition picnic at Sycamore Grove today, February 22. All the "dry" forces are expected to be present with well-filled baskets. Connecticut is the only state so far not to ratify. The Pennsylvania House ratified by a vote of 110 to 93. The Senate is expected to take favorable action later this month.

Los Angeles W. C. T. U. had a most pleasing program on Thursday. Miss Siliman, an evangelistic worker of the Bible Institute, had charge of the devotions, and the Misses Honeyman and Marsh furnished several sacred duets. Mrs. Abbie Jacobs, of Whittier, read an exceedingly fine paper on "Motherhood, the Crowning Sheaf of Womanhood." This paper should be heard by all P.T. A.'s and W. C. T. U.'s, and is worthy of wide publicity. One new member was added to the union. Mrs. Orville Minear, a member of the union, died on Saturday, after a long illness.

Dr. Robert Barton spoke in the interests of the anti-vice campaign soon to be inaugurated. Visitors from Kansas, Massachusetts, Wisconsin, Minnesota, Nebraska and Canada were introduced. Delightful music was furnished by Misses Harriet Reese and Dorothy Strasburg.

The City W. C. T. U. Federation held a most interesting all-day session in Trinity Auditorium on Wed-

nesday. Memorial services were held in the morning for Mrs. Orville L. Minear, treasurer of the federation for eleven years. Mrs. Hester L. Griffith made an interesting address on the three bills which California women are most interested in—community property, industrial farm, and the educational bill. Sergeant Humphrey, home from France, made a short address, and Mrs. M. W. Law spoke on the live questions of the day. At the afternoon session, Dr. Jessie A. Russell gave a clear and convincing address on the topic, "When is a Home Not a Home?" The audience was much interested in the disclosures made of conditions existing at Ventura home, and at the close of the address the following resolution was passed by the federation and sent to Governor Stephens: "In view of the testimony of the committee of investigation from Ventura State School and presented from sworn testimony of witnesses both of Board of Trustees and the school management, also of those sent on tour of investigation, and realizing the policy that has been pursued is contrary to the betterment of all inmates of the school, and therefore is bound to be disastrous to the reformation of these girls, therefore be it resolved that the L. A. City Federation of W. C. T. U., representing about 2000 members, do most earnestly request the Hon. W. D. Stephens, Governor of the State of California, to cause a complete reorganization of the present management and entire change of policy in the California School for Girls at Ventura."
